Certified Clinical Medical Assistant

Effective August 2025

Description

Pierpont's Career & Corporate Training (CCT) Office is excited to offer the CCMA program as an opportunity for students to prepare for their certification exam through the National Healthcareers Association (NHA). The certification demonstrates proficiency in clinical procedures, patient care, and basic administrative duties. Certified Clinical Medical Assistants (CCMAs) assist healthcare professionals with a variety of tasks. Most often, CCMAs perform either clinical or administrative duties in healthcare facilities. Clinical duties could include anything from taking patients' vitals to reviewing patients' health history, while administrative tasks could include working with scheduling patients' appointments or insurance and billing.

The Certified Clinical Medical Assistant program provides both theory/knowledge-based content supplemented by hands on skills labs to prepare students to sit for the NHA CCMA exam and to be career ready upon passing the exam. This hybrid program includes focused core course work through the following classes:

- Fundamentals of Medicine (Online)
- Health Assessment (Hybrid)
- Medical Administrative Assisting (Hybrid)
- Clinical Medical Assisting (Hybrid)
- Additional Skills Lab completion (Hybrid)

The CCMA tuition cost includes instruction, textbooks, exam vouchers, and practice tests.

To be best prepared to sit for the CCMA Certification exam, students must complete a skills lab in addition to the CCMA Core course schedule. Students can choose from one or more of the following skills lab options to support exam readiness.

Pierpont's Career & Corporate Training Office offers skills labs in Phlebotomy, Point of Care, or EKG.

Note: The skills lab component is not included in the tuition cost of the CCMA program. Students who complete a skills lab/course have the opportunity to sit for additional certifications in the lab area of choice.

Location

Education that Works!

Pierpont Community & Technical College is an Equal Opportunity, Affirmative Action Institution

Pierpont's Advanced Technology Center (500 Galliher Dr. Fairmont, WV 26554)

Schedule

Hybrid content with in-class meeting twice a week from 6:00PM-9:00PM

Training cost:
