*\*Students submitting more than one credential for credit. They cannot double dip credits. For example, the CHTS-P awards for HLIN 1105 and 2203, and the CHTP-IM awards for HLIN 1105 and 2207. If a student came to the BOG with both those certifications, they would be awarded a maximum of 9 credits because they could only count the HLIN 1105 one time.*
